

SYSTEMATIX, INC.

Dual Arm Task Light DA Series

If a majority of sensory experience is visual, why not make it more pleasant with task lighting.

The DA series personal task light puts light right where you need it, making it ideal for use near computer screens. With free standing, clamp mount or panel mount configurations; the DA series is as versatile as it is functional.

- 20 watt self ballasted compact fluorescent 2700k lamp
- 6' cord with molded straight plug
- Black cord with black fixture or silver cord with white fixture
- Black rocker switch located on head
- Weighted base and clamp mount standard
- Clamp mount allows for mounting to most free standing or hanging work surfaces
- Panel mount allows for mounting to various office furniture panel system panels
